2. Fuel up (charging)

For best results, fully charge your Rockbox #2 before use. If you cannot wait, use it while it's charging and enjoy the music!

a) How to charge

Plug the Rockbox #2 into an available USB port of your PC or Notebook with the supplied micro USB charging cable. While your Rockbox #2 is charging, the LED light will be orange.

b) How long to charge

A full charge may take between 2 and 3 hours. For maximum battery performance, always use the supplied micro USB charging cable and disconnect when the LED is not orange anymore. This means charging is complete.

3. Connect to your Rockbox #2

a. Connect wirelessly via Bluetooth

Your Rockbox #2 can wirelessly play your music from any Bluetooth device such as Smartphones, Tablets, MP3 players, notebooks and PCs.

Just follow the steps:

1. Prepare your Rockbox #2 for pairing

Turn on your Rockbox #2 by switching the On/Off button. You will a short sound signal when it is ready to connect.

2. Prepare your Bluetooth device for pairing by enabling Bluetooth

iPhone, iPod or iPad

1. Go to "Settings"

1. Move the mouse to the lower right so that several icons begin to appear
2. Move the mouse upward to reveal them
3. Click "Settings"
4. Click "Change PC Settings"
5. Click "PC and devices"
6. Click "Bluetooth"
7. Select the Rockbox #2 from the list of Bluetooth devices and follow the instruction
8. You will hear a short double beep from your Rockbox #2 when the connection is successful

b) Connect via the audio cable

No Bluetooth? Your Rockbox #2 also connects via 3.5mm stereo audio cable.

1. Take the supplied cable
2. Connect one end to your Rockbox #2
3. Connect the other end to any device with a headphone jack or audio output

4. Make some noise! Play music with your Rockbox #2

Music selected on your connected device will automatically play on your Rockbox #2. If you don't hear music, ensure you are connected and that the volume is turned up.

Control the music with your Bluetooth device

Use your connected device (Smartphone, Tablet, notebook, PC) to skip tracks, pause, turn the volume up and down.

Control the music using the buttons on the Rockbox #2

Check the button description under 1b to find out what you can do.

Note

While a device is connected to the speaker via the audio cable, it is not possible to connect a mobile device via Bluetooth simultaneously. To connect via Bluetooth the audio cable has to be unplugged first.

5. Hellos and how are yous. Calling with your Rockbox #2

When you are connected to your Rockbox #2 via Bluetooth, calls received are automatically transferred to your Rockbox #2. The Rockbox #2 will work as a speakerphone.

Taking calls

Use your connected Smartphone to answer calls. Alternatively have a look at 1b and use the buttons on the Rockbox #2 to take, end or reject calls.

6. Use your Rockbox #2 to stream music to your home stereo

Did you know you can use your Rockbox #2 to stream music via Bluetooth to your home stereo or active speaker set?

Simply use an audio cable and plug in one end into the AUDIO OUT connector of your Rockbox #2 and the other end into the AUDIO IN of your home stereo or active speaker set. Done!

Now you have added Bluetooth capability to your home stereo or active speaker set. Any music streamed to the Rockbox #2 via Bluetooth will be played on your home stereo or active speaker set!

7. Other things you might want to know

Do I have to pair my Rockbox #2 with my Bluetooth device every time I want to use it?

No, once paired with a device, Rockbox #2 will automatically reconnect when powered on. Of course, Bluetooth has to be enabled on your Bluetooth device as well.

My Bluetooth device is asking for a PIN or Password to connect to Rockbox #2. What do I do?

When asked for a Pin or Password enter 0000 and confirm.

Can I connect two Bluetooth devices at once?

No, it is not possible for two Bluetooth devices to be connected at once.

How can I get the best sound out of my Rockbox #2?

For best sound, make sure your Rockbox #2 is resting on solid ground.
