### Gigaset AS200-AS200A-AS300\_AS300A\_UK\_A31008-M2208-L101-2-7619

# Gigaset

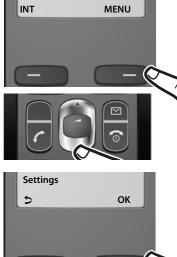

# AS200 - AS200 A AS300 - AS300 A

MADE IN GERMAN

GIGASET HELPLINE: 0845 3670812

### Setting the date and time

Set the date and time so that the correct date and time can be assigned to incoming calls, and so that the alarm can be used.

Date: DD: MM: YY ÷. OK

Press the bottom of the control key.

Press the key below OK on the display screen to confirm your selection.

The Date/Time menu item appears on the display

- Press the key below **OK** on the display screen to open the input field
- The active cursor position is flashing. Enter day, month and year as an 6-digit number via the handset, e.g. 011010 for 01/10/10.

1 one Gigaset AS200/AS200A/AS300/AS300A Base station one mains adapter

3 one Gigaset AS200H/AS300H handset 4 one phone cord 5 two batteries

If you have purchased a model with multiple handsets the package should contain two batteries, a battery cover, a charging cradle 8 with mains adapter 9 for each additional handset.

**Message indication** 

Message Indication Key 🗹 on handset will flash to indicate one or all of the following events:

- new messages on the answer machine (AS200A/AS300A only)

Activating/deactivating the answer machine (AS200A/AS300A only) MENU  $\rightarrow$  Voice Mail  $\rightarrow$  OK  $\rightarrow$  Answer Mach.  $\rightarrow$  OK ( $\checkmark$  = on) If the answer machine is activated, the answer machine icon on will be displayed in

the header.

To retrieve your messages, just press the flashing 🗹 key on your handset.

### **Dial tone**

The dial tone will only be heard when pressing the  $\ell$  call button for 2 seconds. A short press will open the redial list.

You can also use the d speaker button (AS300/AS300A only).

### **Display in idle status**

- 2: internal number, if more then one handset is registered
- OD: answer machine is activated (AS200A/AS300A only)
- Battery charge status:
- (\_\_\_\_) (\_\_\_) (\_\_\_\_) (empty to full)
- Image: flashes: batteries almost empty
- () () flashes: charging procedure

### Connecting the base station

2

Connect power adapter 1 and Phone jack 2 to the base and place the cable recesses. Please ensure the power lead is fully inserted.

#### Please note:

- The mains adapter must always be connected, as the Phone will not operate without a mains connection.
- Always use the power adapter and Phone cord supplied. Pin connections on Telephone cables can vary.

### Connecting the charging cradle (if included)

If you need to disconnect the plug from the charging cradle, press the release button 3 and disconnect the plug 4.

Your handsets should already be registered by default, if your handset is flashing the text "No Base" then it can be that:

- Your base station is not switched on, please check if the power supply is connected properly.
- There is too much distance between the handset and base.
- Your handset has not been pre-registered in the factory

In the case that the handset has not been pre-registered, or you want to register an additional handset to your base station, use the manual registration procedure below.

#### Automatic registering procedure

Put into base MENU

Place the handset with the display facing up in the base station

Registering

The handset registers automatically. Registration can take up to 5 minutes. Do not remove the handset from the base station during this time.

#### Manual registration procedure

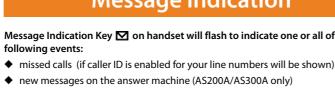

1. On the handset:

MENU  $\rightarrow$  Settings  $\rightarrow$  OK  $\rightarrow$  Handset  $\rightarrow$  OK  $\rightarrow$  Register HS  $\rightarrow$  OK  $\rightarrow$  enter the system PIN for the base and press OK. Default PIN = 0000

2. On the base station:

Within 60 seconds of entering the system PIN, press and hold the registration/paging key (min. 3 seconds). Registration takes approx. 1 minute.

You can register up to four handsets to your base. You can also register other Gigaset handsets and handsets from other devices with GAP functionality.

6 one battery cover

7 this Quick start guide

### **Preparing the handset**

- Insert the batteries the right way round. The polarity is indicated in/on the battery compartment
- Then slide the battery cover back into the main casing until it clicks into place.

If you need to open the battery cover, for instance to replace the batteries, place your fingertip in the grooved area on the top of the cover and slide down.

#### Initial charging and discharging of the batteries

The correct charge status can only be displayed if the batteries are first fully charged and discharged.

> Place the handset in the charge for 7 hours.

Then remove the handset from the charger, make and receive Phone calls, setup the Phone etc. and do not put it on the charger until the batteries are fully discharged.

### **Frequently asked questions**

- O: There is no dial tone
- A: Press call button for 2 seconds (long press) to obtain dial tone.
- A short press opens the redial list.
- The line is crackling / not clear
- A: Have you used the new line cable provided? Please do not use an old cable.
- The display is not clear / seems to be broken The display is protected by a plastic film, please make sure you have removed A: the protective film
- The handset is not registered
- If your handset is not registered, please follow the Registration handset procedure. A: (Described on this page)
- The caller ID is not worki
- Have you subscribed to this service (CLIP) from your provider?
- O: Message indicator flashing and I cannot retrieve my messa
- A: Message indicator will flash to indicate missed calls. (Described on this page)

#### **Please check:**

You have questions? As a Gigaset customer, you can take advantage of our comprehensive service offerings. You can find help quickly in this User Manual and in the service pages of our Gigaset online portal: http://www.gigaset.com

Product may not be fully compatible with the national telephone network. It is clearly specified on the box near the CE mark for which country/countries the equipment has been developed. If the equipment is used in a manner inconsistent with this advice or with the instructions of the manual and on the product itself, this may have implications on the conditions for warranty or guarantee claims (repair or exchange of product). In order to make use of the warranty, the product purchaser is asked to submit a receipt which proves the date of purchase (date from which the warranty period starts) and the type of goods that have been purchased.

## Guarantee Certificate United Kingdom

- Guarantee Certificate United Kingdom
   Without prejudice to any claim the user (customer) may have in relation to the dealer or retailer, the cus-tomer shall be granted a manufacturer's Guarantee under the conditions set out below:
   In the case of new devices and their components exhibiting defects resulting from manufacturing and/or material faults within 24 months of pur-chase, Gigaset Communications shall, at its own option and free of charge, either replace the device with another device reflecting the current state of the art, or repair the said device. In respect of parts subject to wear and tear (including but not limited to, batteries, keypads, casing), this warranty shall be valid for six months from the date of purchase.
   This Guarantee shall be invalid if the device defect is attributable to improper treatment and/or fail-ure to comply with information contained in the user guides.
- This Guarantee, Claims under the Guarantee
   This Guarantee shall not apply to or extend to services performed by the authorised dealer or the customer themselves (e.g. installation, configuration, software downloads). User guides and any software supplied on a separate data medium shall be excluded from the Guarantee.
   The purchase receipt, together with the date of purchase, shall be required as evidence for invoking the Guarantee. Claims under the Guarantee must be submitted within two months of the Guarantee default becoming evident.

- Ownership of devices or components replaced by and returned to Gigaset Communications sha
- vest in Gigaset Communications.
   This Guarantee shall apply to new devices purchased in the European Union. For Products sold in the United Kingdom the Guarantee is issued by: Gigaset Communications UK Limited, Ouatro ouse, Lvon Way, Camberley, Surrey, GU16 7ER.
