# Safety Precautions

---

Before start working with the Device, please, read this section carefully. Following these instructions will help you ensure your safety and extend service life of the Device.

## Storage, Carriage and Usage Conditions

Device operating temperature range is 0°C to 40°C, so don't expose the Device to excessively high or low temperatures. Never leave cables near heat sources. Heated cables or their insulation may become deformed or damaged, which could lead to fire or electric shock.

Try to avoid next impacts:

**Maintenance**

⊗ Do not leave the Device for a long time in poorly ventilated environment, e.g. in a car or in closed tight boxes/ packaging.

⊗ Neither drop nor try to bend the Device.

⊙ Protect the screen from objects that may scratch or damage it. To ensure adequate protection of the screen, we recommend storing the Device in a protective and/or hard cover.

⊙ Keep away from children.

⊗ Do not disassemble or modify the book reader.

⊗ Do not use the Device with a damaged battery or charger (broken case, poor contact, broken feed cable). If the battery is damaged (cracked case, leakage of electrolyte, off-shape etc.) it should be replaced by the authorized personnel. Usage of home-made

or modified batteries may cause an explosion and/or damage the Device.

⊗ Do not use organic or inorganic solvents (e.g. benzoyl etc.) to clean the screen/case.

✓ Use a soft cloth to remove dust from the Device's surface. Apply a few drops of distilled water to remove dirt.

Up to five faulty pixels are acceptable in the screen and do not constitute a warrantable defect of the screen.

If the device has not been used for a long time, the battery charge indicator may not work when the charger is connected. In this case, connect the charger, let the device charge for 1 hour, then disconnect and reconnect the charging device or USB cable. The device can then be used as normal.

To prevent possible hearing damage, do not listen at high volume levels for long periods.

By the end of product guarantee term, please contact the nearest authorized service facility for examination on the subject of security is maintained.

For detailed information about service centres in your region please visit the official website of PocketBook International: <http://www.pocketbook-int.com>.

### **RF Safety**

The Device receives and transmits radio frequencies and may interfere with radio communications and other electronic equipment. If you use personal medical Devices (e.g. a pacemaker or hearing aid) please contact your doctor or the manufacturer to learn whether or not such medical devices are protected against external RF signals.

Do not use wireless communication in places where it is prohibited, e.g. onboard a plane and in hospitals — this may affect airborne avionics or medical equipment.

## Utilization

Incorrect disposal of this Device may have adverse impacts on the environment and public health. To prevent such consequences follow the device-specific disposal requirements. Recycling of these materials helps preserve natural resources. For more information regarding recycling issues please contact local municipal authorities, your domestic waste collection service, store where you purchased the Device, or the authorized service centre.

Disposal of electric and electronic components (the Directive is applicable to the EU and other European countries where separate waste disposal systems exist). In other countries dispose batteries accordingly to local laws.

Do not destroy the battery by burning it to avoid the danger of explosion

# Appearance

---

1. **Home** – return to Main menu;
2. **Backward** – in reading mode turns page backward; in navigation mode – goes to the previous menu or page of the list;
3. **Forward** – turns page forward;
4. **Menu** – open context menu (if available). Continuous press switches the frontlight on/off (See *Frontlight* section of the manual);

5. **Side right button** – turns page forward;
6. **Camera** — 5 MP camera with autofocus;
7. **LED flash**;
8. **Protective cap**;
9. **Side left button** – turns page forward;

10. **Hand-strap hole;**
11. **3.5 mm audio jack;**
12. **Micro-USB socket** - connect the Device to a PC or a charger using USB-cable;
13. **microSD slot** - to install external microSD/SDHC card (up to 32 GB);
14. **On/Off (power button)** – continuous press turns the Device on/off.

**NOTE** You can configure key mapping to your own in *Settings > Personalize > Key mapping*. Navigation and page turning buttons mapping depends on screen orientation.

# Technical Specifications

---

<b>Display</b>	6" E Ink Carta capacitive multi-sensor 1024×758 display, 212 dpi, B&W
<b>Frontlight</b>	Yes
<b>CPU</b>	Freescale i.MX6 Solo Light

<b>Weight</b>	175 g

\* The actual available internal storage size may vary depending on the software configuration of your device.

\*\* Battery life and values mentioned above might vary depending on usage mode, connectivity and settings.

# Getting Started

---

In this chapter you will learn how to prepare the Device to work and about its main control features.

## CHARGING BATTERY

To extend battery lifetime, it's recommended to charge the Device for the first time from *8 to 12 hours* in the off state.

You can charge the battery from **(1)** PC using USB-cable or from **(2)** the power line using a charger (optional).

To charge the battery for the first time, do the following:

- Connect the Device to a computer or charger with USB-cable. Indicator will glow as soon, as the charging starts
- When the battery is fully charged, indicator goes off. Now you can disconnect the Device and turn it on for the first use.

If the Device is on when you connect the cable to PC, a dialog window asking to select action – *PC link* or *Charge* – will appear.

## DEVICE MANAGEMENT

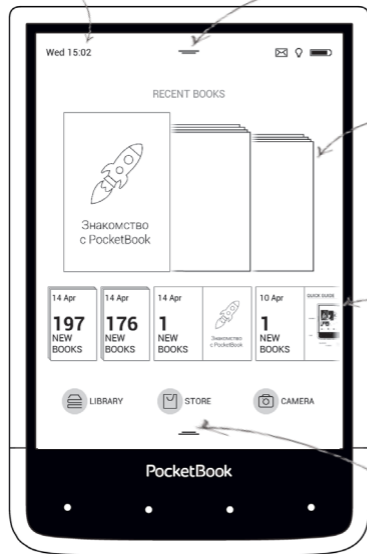

<b>Turn on</b>	Press <b>On/Off</b> button. When the Device is ready to operate, Main menu or last opened book will appear, depending on settings.
<b>Turn off</b>	Press and hold <b>On/Off</b> button for about two seconds until the Device goes off.
<b>Lock</b>	<p>You can lock your Device in three ways:</p> <ol style="list-style-type: none"><li>1. Press <b>On/Off</b> button.</li><li>2. Invoke <i>Task Manager</i>. Touch icon  to block your Device.</li><li>3. You can set automatic key lock or power off: go to <i>Settings &gt; Saving Power &gt; Power off after</i> or <i>Lock device after</i>, and set the idle time before power off or locking Device.</li></ol>
<b>Unlock</b>	Press <b>On/Off</b> button.
<b>Restart</b>	In case if your Device 'freezes' (don't respond to keys presses or screen touches, you must give the device time (up to 30 seconds) to process commands. If it does not help, you can restart it by pressing <b>On/Off</b> button for 10 seconds.
<b>Task Manager</b>	<p>You can invoke <i>Task Manager</i> in two ways:</p> <ul style="list-style-type: none"><li>• by touching at the notification bar  icon;</li><li>• by continuous press on the  <b>Home</b> button.</li></ul> <p><i>Task Manager</i> gives quick access to some Device control features:</p> <ul style="list-style-type: none"><li>• close running applications: press  against an application in the list.</li><li>•  Lock Device. To unlock, press <b>On/Off</b> button.</li><li>•  Open wireless connections list.</li><li>•  Take a screenshot.</li><li>•  Turn off the Device.</li></ul>

## MAIN MENU OVERVIEW

Touch to open **Calendar**

Slide down to open a **Notification panel**

'Recent Books' is a list of recently opened books

Last downloaded books

Slide up to open an **Application panel**

## Notification panel

Touch or slide down the icon  to open a *Notification panel*.

**NOTE:** You can open *Notification panel* also pressing a **Menu** button.

Notification panel gives an easy access to configuration of Wi-Fi and Frontlight, Sync of network services, Task manager, device Settings and Search.

Also the news on ReadRate are displayed on it.

**NOTE:** To see the ReadRate news, please, authorize to the service first. Go *Settings > Accounts and Synchronization > ReadRate* and *Log in* the service.

## GESTURES

**CAUTION!** Touch screen of the Device is sensitive enough and is a fragile detail. To avoid its damage, please, touch it carefully while controlling the Device with gestures.

### Tap

Opens an element (book, file, folder application or menu item).

### Touch & hold

Opens context menu of an element (if available).

### Slide

Turns pages of a book or a list; moves an image: slide your finger across the screen.

## Flick

Scrolls lists: move your finger across the screen rapidly.

## Scaling

Changes the image scale: place two fingers on a screen and pinch them together to zoom out or spread them apart to zoom in.

## WORKING WITH ON-SCREEN KEYBOARD

On-screen keyboard is used when it's necessary to enter text information, for example, for search or network connection credentials.

To type a symbol, press a key.

To switch to another input language, press the current language button. To add the language to the on-screen

keyboard layout go to *Settings > Languages > Keyboard Layouts*.

1. Change case;
2. Enter the typed text;
3. Close the on-screen keyboard;
4. Erase last typed symbol;
5. Change input language.

As you type a password (e.g. Wi-Fi credentials)  icon will appear on a text field. Touch it to see typed symbols.

## FRONTLIGHT

To turn on/off the frontlight, press and hold the Menu button for 1 second.

Also you can adjust the frontlight level using the slider in the notification bar.

## CONNECTING TO THE INTERNET

The Device can be connected to the Internet using Wi-Fi networks. If you open an application, which requires Internet access (e.g. *Browser*, *RSS News*) the Device will open a list of available Wi-Fi connections. If the network you select is protected, you will be suggested to enter network key using the on-screen keyboard.

You can pre-configure a connection and set an automatic connection. To proceed, follow these steps:

1. At the notification bar go to *Settings > Network > Network Access*;

2. Select *On* for the *Network access* checkbox and then further settings appear: *Auto connection*, *Connection to a hidden network*, and a list of available Wi-Fi networks.

**NOTE** If there are no available networks or the signal strength is weak, *Available networks* are not displayed and instead replaced by *Scanning* — searching for available networks.

3. To set up connection with a hidden network, open *Connection to a hidden network* and enter its SSID from the on-screen keyboard in the *Network name (SSID)* field.

4. Select security type in the corresponding list:
  - *None* – for an open network;
  - *Simple (WEP)* – after you select this option, you will need to specify *WEP Authentication type* – *Open System* or *Shared Key* either. The Device cannot recognize authentication type automatically;

- *WPA/WPA2 Enterprise* – you will need to specify username, password and domain (if necessary);
- *WPA/WPA2 PSK* – you will need to enter network key (up to 64 symbols).

5. Open *Advanced settings*. Select the idle time before disconnection in the corresponding section.

6. If it is needed to configure network settings manually, go to *Advanced settings*, and change *IP address configuration*:

- *DHCP* — get IP address automatically (if DHCP server is configured);
- *Manual* (for skilled users) — enter networks parameters manually from the on-screen keyboard.

7. If the network you need to connect to has a proxy server, you can specify its parameters in *Proxy configuration* section.

8. To check network configuration and connect to a network, return to the *Connection to hidden network* section and press *Connect*.

**NOTE** Wi-Fi connection can be used for connecting to an Internet network. Transferring data via Wi-Fi connection is unavailable. The Device can be connected to a Wi-Fi access point with MAC address filtration applied.

## INSERTING MICRO SD CARD

The Device already has 4 GB of internal storage, but you can extend it by using micro SD card (up to 32 GB). Insert it to the slot, like it is shown on a figure, and slightly push until card will be fixed.

To eject the card, slightly press on its edge until it will be unfixed, and pull it to get.

**ATTENTION!** If your SD card get stuck, do not try to eject it by yourself and immediately call Customer Support.

# Reading Books

---

In this chapter you will learn how to read e-books and configure reader software for the most comfortable reading. The Device supports next book formats: PDF, EPUB (including Adobe DRM-protected); FB2, FB2.ZIP, DOC, DOCX, TXT, DjVU, RTF, HTML, HTM, CHM, TCR, PRC, MOBI, ACSM.

To open a book, touch its icon on *Recent Books* or *Library* section. If you opened a book before, it will be opened at the page you've finished reading. In some book formats (e.g. fb2 or ePub) after opening a book reader application will count pages – this is indicated with '...' sign instead of a page count in a status bar. During page calculation some features will not be available.

To bring up reading menu, touch the center of the screen or press **Menu** button.

## GESTURES IN READING MODE

-  Close book;
-  Make a bookmark;
-  Turn pages forward;
-  Turn pages backward;

Pressing in the center of the screen evokes the **Reading menu**

## Page turning

## Scaling

## READING MENU

*Book name: touch to see the book info or open ReadRate menu*

*Contents*

*Back*

Tue 16:24

*Search*

*Bookmark*

**User Manual PocketBook**

*Search*

*Bookmark*

1. At the notification bar go to *Settings > Network > Network Access*;
2. Select *On* for the *Network access* checkbox and then further settings appear: *Auto connection*, *Connection to a hidden network*, and a list of available Wi-Fi networks.

**NOTE** If there are no available networks or the signal is weak, *Available networks* are not displayed and instead replaced by *Scanning* — searching for available networks.

3. To set up connection with a hidden network, open *Connection to a hidden network* and enter its SSID from the on-screen keyboard in the *Network name (SSID)* field.
4. Select security type in the corresponding list:

*Open ReadRate menu*

Mode   Rotate   Voice   Note   Dictionary

23/102

*Pull the slider to turn pages or touch the page number to input the digits of needed page*

The screenshot shows a mobile application interface for reading a book. At the top, there's a status bar with the time 'Tue 16:24' and system icons. Below that is a navigation bar with a back arrow, a menu icon, the book title 'User Manual PocketBook', a search icon, and a bookmark icon. The main content area contains a list of instructions for setting up network access. A cartoon character is shown on the right side, reading a book. At the bottom, there's a slider for page navigation and the page number '23/102'. Annotations with arrows point to various elements: 'Contents' points to the menu icon, 'Back' points to the back arrow, 'Book name: touch to see the book info or open ReadRate menu' points to the book title, 'Search' points to the search icon, 'Bookmark' points to the bookmark icon, 'Open ReadRate menu' points to the cartoon character, and 'Pull the slider to turn pages or touch the page number to input the digits of needed page' points to the slider and page number.

## SOCIAL NETWORKS & READRATE

Now you will be able to take advantages of social networks on your Pocketbook: share quotations from books, add comments, tell what you are reading or have read, like or don't like. ReadRate also allows you watching the friends' events and obtaining information about the most popular books.

You need an Internet connection to send events to social networks. To open the ReadRate menu, touch the  icon in the reading menu.

## Reading status and Book Rate

1. Touch one of the options (*Now reading, Have read, Plan to read, Recommend* or *Rate* with stars from 1 to 5).
2. Enter data (E-mail and password) of one of your accounts: in social networks or in the market Book Store.

3. In consequence there will be created the ReadRate profile, you can link another social networks accounts to it. After authorization the window appears:

4. Select social networks, where you want to send news: Facebook, Vkontakte, Odnoklassniki, Twitter, LinkedIn, Google+ – icons of chosen networks will become hefted.

5. If the chosen social network wasn't linked to the ReadRate profile, you will be proposed to link them.

6. Confirm your choice by pressing **OK**.

All actions are displayed by default in your ReadRate profile and in the news line of chosen social networks.

After activating *Now reading*, *Have read* or *Plan to read* statuses, their icons become colored — ,  and .

## Recommend

1. Touch *Recommend* option.
2. After that the scenario **Reading status and Book Rate** is performed, beginning from **2 item**.

3. Choose a friend from a list or enter user email to send a recommendation to him/her.

4. Enter a comment and confirm sending by pressing *Recommend*.

## Share quotation

To share quotation from a book:

1. After continuous touch on the screen in the opened book, creeper of text selection appear.

2. Select quotation and press *Share* icon .

3. After that the scenario **Reading status and Book Rate** is performed, beginning from **2 item**.

4. All actions of your friends on ReadRate are displayed in *Notification panel* of your Device:

Book recommendations from ReadRate

+37 events of friends on ReadRate

5. You can *Delete* or *Open* event. When you open it all new friends' actions on ReadRate will be displayed.

#### ReadRate news / February 12, 2014

✦ [Ruslan Pogutsa](#) rated the book "[A Christmas Carol](#)" (Charles Dickens)

✦ [Ruslan Pogutsa](#) rated the book "[Benutzerhandbuch PocketBook](#)"

To delete your social networks accounts information for ReadRate, go to *Settings > Accounts and Synchronization > ReadRate > Remove ReadRate authorization* on your PocketBook.

If you want turn off temporarily the ReadRate functionality, set *Off* in *Settings > Accounts and Synchronization > ReadRate > ReadRate Status*. After this operation all ReadRate options becomes hidden and inactive.

## ☰: CONTENTS

If a book has table of contents, you can open it by selecting the corresponding reading menu item.

Content section contains three insets:

- *Sections* (book's chapters names);
- *Bookmarks* (made during reading);
- *Notes* (graphic or text).

If table of contents has more than one level, higher level entry will be marked with '+' sign – touch it to expand. '+' sign will be changed to '-' – touch it to collapse.

To open contents menu touch and hold your finger on the screen or press  key. Using the menu you can open contents entry, edit or delete notes and bookmarks.

In addition, you can expand or collapse all the table of contents entries.

## BOOKMARKS

To create a bookmark, touch right top corner of the screen. A dog ear mark will appear. To delete a bookmark, touch this mark again and confirm deletion.

Also you can add/remove bookmarks by selecting the corresponding reading menu item. All the bookmarks are displayed in book contents.

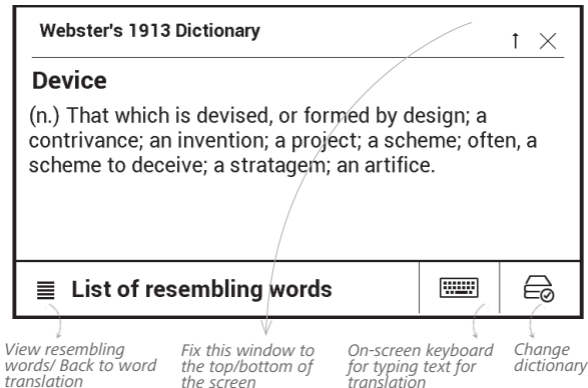

---

	Contents / User Manual PocketBook	
		
	Bookmark	18
	Bookmark	46
	Bookmark	65

## DICTIONARY

Touch and hold a word to open a panel allowing you to search for translation using one of installed dictionaries or find a word in Google. Also after selecting Dictionary item, a window with dictionary entry of a selected word appears. Next tools are available:

 **NOTES**

Notes allows you to save favorite book fragments and make handwritten records directly in the text. All the notes will be displayed in book's table of contents. To enter notes mode, select  *Note* reading menu section.

**Creating notes** ✕

---

Create notes in a book with the help of usual instruments.

---

 Mark text with the marker.

---

 Draw notes directly in the book.

---

 Eraser removes pencil lines or a marker completely; the text of the book will remain.

---

 Save the part of the page as an image simply drawing a line from the first to the last point.

---

 All notes are saved in synopsis of the book.

**NOTE** Handwritten notes are not available for DjVu books.

After you will enter Notes, a tooltip window will appear. All notes are visible from section *Notes* at *Application panel*.

## TEXT-TO-SPEECH (VOICE)

Text-to-Speech (TTS) software is designed to transform text into speech.

To start TTS, open reading menu and select *Voice*. TTS control panel will appear:

Progress bar indicates a fragment read currently, pages are turned automatically as you listen.

Initially there are 3 TTS packages are installed on the Device.

## READING SETTINGS

You can customize the display of books depending on your preferences.

### Text Format Books

In text format books (TXT, FB2, DOC etc.) there are options to configure reader software: font, font size, line spacing, page margins width, hyphenations (*on/off*), encoding, text direction (*Left to right/Right to left/Automatic*).

**NOTE:** You can change font size using the scaling gesture: pinch two fingers together to reduce font size and spread fingers apart to enlarge.

## PDF & DjVu

You can change only the whole page scale only (except *Reflow* mode for PDF).

Pinch two fingers together to zoom out or spread them apart to zoom in or slide a finger upwards the right side of screen to zoom in or downwards – to zoom out, respectively.

Under *Mode* reading menu section you can zoom pages or select viewing mode:

1. *Fit width* – scaling page to the screen width;
2. *Whole page* – one page scaling;

3. *Columns* – for reading books with columns. To navigate the page use navigation buttons. A page will be turned after bottom edge of the sheet reached;

4. *Reflow* – in this mode text is formatted to display completely on the screen. Reflow mode is supported for PDF books only. Some tables and pictures cannot be displayed in the *Reflow* mode;

5. *Margins cropping* – allows to decrease margins width or height. In *Mode* section of the reading menu, press  to extend *Margins cropping* menu:

- *off* — turn off margins cropping;
- *automatic* — margins will be cropped automatically
- *manual* — move arrow buttons to set margins width and height of margins.

## EPUB

In books in EPUB format there are options to configure reader software: font, font size, line spacing, page margins width, text direction (*Left to right/Right to left/Automatic*).

## FOLLOWING LINKS

To follow a footnote, internal or external link, touch to enter links mode. To exit this mode, touch top left corner of the screen.

If a link follows to a web-site, it will be opened with Device built-in browser. To return to reading, press *Exit* in Browser menu.

## LOADING FILES

Connect the Device to the PC using microUSB cable.

**NOTE** The Device should be kept on while transferring files.

You will be prompted to select USB mode: *PC Link* or *Charge* either. Select *PC Link*. Operating system of computer will detect Device's storage as removable disk (if SD

card installed – as two ones). Now you can copy files to the Device or SD card using Explorer or other file manager.

**ATTENTION!** After copying files safely remove the Device before disconnect the cable!

### **Downloading protected e-books (Adobe DRM)**

Registration at [www.adobe.com](http://www.adobe.com) is required to use e-books in protected format (*Sign in > Create an Adobe Account*).

### **Download via \*.acsm**

1. Visit [www.adobe.com](http://www.adobe.com) via your browser;

**NOTE:** the current version of your browser on the Device does not support Flash Player

2. Open *Products*;
3. Follow the link *Digital Editions* in the alphabetical index of products.

4. Open *Visit the sample eBook library* at the bottom of the page to enter the library;
5. Choose a book and click Download item.
6. A download window will appear on the screen. The file name should contain the name of the book and the file extension *.acsm*. Click *Save*.
7. After the file is saved on your PC, a link as URLLink.acsm will appear.

**NOTE:** The same sequence of actions allows downloading a link to a protected book from any online bookstore.

Do the following to open a protected (DRM) book on the Device:

1. Copy the file of the link to a book (*\*.acsm*) to your Device.
2. Find and open the file on your Device.
3. Follow the on-screen instructions to activate your Device. To do this, use the on-screen keyboard to enter the login and password of your account on [www.adobe.com](http://www.adobe.com)

into the *Device Activation* form. Then you will be able to download the book.

**4.** Download the book. After the download is complete, a full version of the book will be available for reading in the *Digital Edition* folder.

The downloaded book is protected (DRM) and cannot be opened by a non-registered user.

## Download books via PC

1. Open the *Adobe Digital Editions* application.

**NOTE:** When connecting your Device to PC for the first time, *Adobe Digital Editions* prompts you to activate the new device. Use your registration data at [www.adobe.com](http://www.adobe.com) for this. If the Device is not activated, it will be impossible to copy a book from PC to device using *Adobe Digital Editions*. If you have previously used registration data in a firmware version earlier than 2.0.4 in the device for opening protected books then, when upgrading the software version, you will have to enter registration data at [www.adobe.com](http://www.adobe.com).

com once more to open such books again. Authorization of *Adobe Digital Edition* can be deleted in section *Settings > Service > Delete ADE authorization*.

2. Select the *Go to library view* icon.
3. Click *All items*.
4. Choose a book and copy it to your Device.

## **Sync your device with network services**

You can also upload files to the Device synchronizing device memory with personal accounts of network services - *PocketBook Sync*, *Send-to-PocketBook* and *Dropbox*.

### **Variant 1**

- Open *Settings > Accounts and Synchronization*;
- Select the appropriate network service (*PocketBook Sync*, *Send-to-PocketBook* or *Dropbox*);
- Select the synchronization option.

## Variant 2

- Open *Library*;
- Call up the context menu of a folder of the service which you want to synchronize with your device;
- Select the synchronization option.

For detailed information about work with network services see sections [\*PocketBook Sync\*](#), [\*Send-to-PocketBook\*](#) and [\*Dropbox PocketBook\*](#). Read more about configuring network services at the section [\*Accounts and Synchronization\*](#).

Synchronization status can be viewed on the *Notification panel*.

During uploading or downloading files an animated icon  displays at the status bar. Touch the icon to open a window with the synchronization status of all services.

The icon in the status bar changes to  if the error occurred during synchronization of one of the services. If all synchronization processes are completed without errors, the icon in the status bar disappears.

## LIBRARY

Library is e-books file manager. Library menu allows to filter, group, sort, change appearance of the section and perform search.

### 1. Grouping criteria

Depending on selected criterion books are grouping by:

- *Folders*;
- *All Books*;
- *Genres*;

- *Authors*;
- *Bookshelf* - create your own shelves with books depending on your interests and preferences;
- *Series*;
- *Formats*.

The results of grouping can be displayed as ascending (A-Z) or descending (Z-A).

## 2. Sorting criteria

- *By opening date*;
- *By addition date*;
- *By title*;
- *By author*.

## 3. Books list views

■ ■ *Simple* – in this mode the cover icon of the book is displayed.

■ ■ *Detailed* – in this mode there's added author, title, thumbnails, information about file format and size, read percentage.

## Context menu...

...opened by continuous touch...

...and allows proceeding with next file and folder operations:

- *Book Info* - brief information about book/folder;
- *ReadRate*;
- *Add to bookshelf*;
- *File* – file operations:
  - *Copy*;
  - *Move*;
  - *Delete*;
- *Select* - multiple choice of files.

# Applications

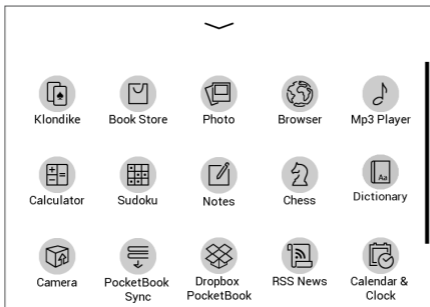

---

In this chapter you will learn about applications which are preinstalled on your Device.

There are three apps which are brought out to the main menu:

- *Library;*
- *BookStore;*
- *Camera.*

The rest of the apps are available at the application bar. To invoke it touch the icon  at the main menu.

## LIBRARY

Library is e-books file manager, which allows to group, sort, change appearance of the section and perform search. Read more about this app at [\*Library\*](#).

## BOOK STORE

Book Store application provides quick and convenient licensed content download from Book Store portal (<http://www.bookland.com/>) to your Device. The internet connection must be active.

If you are already registered at the portal <http://www.bookland.com/>, press *I already have an account BookLand* and check if the login and password are entered correctly at Book Store settings.

Enter your account data at Book Store in the section *Settings > Accounts and Synchronization* in your Device.

If the connection with an account is set properly, you get access to all the features of a portal.

Press the *Personal Room* to expand options for work with a personal account:

Exit                      Personal room

The screenshot shows the BookLand website interface. At the top, there is a navigation bar with a home icon, the 'BookLand' logo, a search icon, and a menu icon. Below the navigation bar, there are two tabs: 'Most popular books' (which is selected) and 'New books'. The main content area displays a grid of book covers with their respective prices in UAH.

Book Title	Author	Price (UAH)
LISTEN TO THE ECHOES	THE RAY BRADBURY INTERVIEWS	180.70
THE CURIOUS CASE OF BENJAMIN BUTTON	F. SCOTT FITZGERALD	94.92
Life of Pi	YANN MARTEL	130.33
MOCKINGJAY	SUZANNE COLLINS	123.84
BISMARCK		142.09
J.R.R. TOLKIEN	THE LEGENDS OF SIKRIID	167.84
Simon's Cat	in Kitchen Chaos	246.12
THE GIRL ON THE DRAGON TATTOO	STIEG LARSSON	151.49

All bestsellers >

- *Top up the balance* – top up the balance on a site BookLand or directly on the Device using the bank card (Visa, MasterCard, Maestro);
- *Purchase history* – the list of goods, purchased at the store;
- *My cards* – used bank cards;
- *Exit*.

Select the book and press *Buy* to purchase goods. Choose the format of a downloading book and press *Buy and download* on the page *Your purchase*. The bought file is moved to the folder *Library > Downloads* and is displayed on the wall of *Last events* of the Main Menu.

**NOTE** If there is no money on your balance, it will be offered to you to top up the balance on a site BookLand or directly on the Device using the bank card (Visa, MasterCard, Maestro).

 **CAMERA**

The Device has a 5 megapixel camera with autofocus and LED flash. With camera you can take pictures and scan documents to create your own books.

## To make pictures:

1. Go to *Camera* on the home screen of your Device.
2. Point the camera at the subject of photographing and click on the icon  at bottom of the screen or press **Forward** button.

**NOTE:** To set the flash (*auto /off /on*) click on the icon  in the lower right corner of the screen.

3. Pictures can be seen in the app *Gallery*.

## To scan documents:

1. Go to *Camera* on the home screen of your Device.
2. Click on the icon  at the top of the screen and in the pop-up window select *Create Document*.

**NOTE:** In the lower left corner will appear counter  that shows the number of images in a new document.

3. Point the camera on the object of scanning and click on the icon  at the bottom of the screen or press **Forward** button.

4. Continue actions from **item 3**, until all pages are scanned.

5. Save the scanned document by clicking on the icon  in the upper right corner.

6. Thereafter, the application will prompt to recognize text on images and export it to one of the supported formats (PDF or TXT).

Scanned document can be viewed and edited with application *Documents*. Details of the work with scanned materials read at section [Documents](#).

## STANDARD APPS

### Notes

In this section you can view all the notes made during reading. After you select a note, the table of contents of the book, where it was made, will open. Please, read more about notes creation and editing in [\*Notes\*](#).

### Calculator

Engineering calculator supports a wide range of mathematical operations, such as different numeric systems, trigonometric, logarithm, power and logical operations.

### Calendar & Clock

Opens current month calendar and clock. Navigation   allows turning over a calendar. The button  returns you to the current month. Read about date and time setting in [\*Date/Time\*](#) manual's chapter.

 **Scribble**

Application for drawing. To select the drawing tool, use the application control panel:

 Text: select the position and size of the text box. Text is entered with the on-screen keyboard;

 Font: change font and its size;

 Pencil: a tool for drawing thin lines;

 Marker: a tool for drawing thick lines;

 Eraser: a tool for removing lines and text;

 Back: cancel the last operation;

◀ 1/1 ▶ Current drawing/total number of drawings: change the current drawing;

 New: start new drawing;

 Delete drawing;

 Exit application.

To save a picture, touch  icon. The current picture will be saved to the *My Pictures* folder in the root folder of the Device. In addition, *Scribble* application is used for editing graphic notes.

 **Gallery**

Opens Library in the mode of viewing images (downloaded to the folder *Gallery*). The opened photo is displayed in a full-screen mode. To set a photo as *Power-off Logo*, to *Rotate* or view *Information* about it, touch the full-screen image to switch to the editing mode and press menu sign ☰ in the right top corner of the screen. In the editing mode you can zoom a photo by zooming gestures and set the selected area as a logo.

 **Documents**

*Documents* - an electronic file manager that allows you not only to view scanned documents, but also edit them, recognize the text on images and make your own books, converting images to PDF or TXT formats.

## To edit images:

1. Open a document.
2. Select an image to edit and open with tap on it.
3. Click on the icon  at the bottom of the screen to call up Settings panel.

**NOTE:** You can also call up image settings with the help of the context menu. Open context menu by long tap on the picture on the list of document and select *Edit*.

4. To apply the selected settings click on the icon  in the upper right corner.

**CAUTION:** Click on the icon  will save settings only for the selected photo. To apply settings to all pictures of the document, click *Apply to all*.

**To recognize text:**

1. Open a document.
2. Select an image and open it with tap on it.
3. Click *Recognize Text* at the bottom of the screen.
4. Select between options *Recognize all images* or *Recognize only this picture*.
5. Choose the language of text recognition.

Once the process of text recognition is completed, you will be prompted to export the new document into PDF or TXT formats.

New created books can be viewed at the *Library* section.

## Audio-player

Music player for playing .mp3 media files.

In the *Application menu* you can add audio files and folders with audio to the playlist, rearrange tracks, and save or clear playlist.

By means of the *context menu*, opened with a long press on the track, you can perform the following operations: view info about track, add to queue, or remove the file from the list.

## GAMES

### Klondike

Classic solitaire.

### Sudoku

Popular Japanese puzzle. Press on an empty cell to select it. After that you can input in the selected cell the digit

you think should be in the cell or set labels — digits that you suggest may be in the cell. Digits and labels should be chosen from the bottom selection panel.

## Chess

You can play versus your friend or the Device. If you are playing against the Device, you can select 10 difficulty levels.

## INTERACTIVE APPS

## RSS News

Application for adding and reading RSS feeds. To add RSS news feeds, open RSS setup. Select the *Add RSS feed* option. Enter the feed address using the on-screen keyboard.

To delete the feed, select it, open the context menu and select *Delete* command or press the *Recycle bin* icon .

To edit the feed, select it, open the context menu and select *Edit name* or *Edit URL* command. Edit the RSS feed name or address using the on-screen keyboard.

To update feed, select *Update* in the application menu. Updated content is added to the file with .hrss extension, and the file will be accessible for reading after updating. The news downloading status is displayed while updating. After the update file is available for reading off-line using the browser.

To read latest feeds, select *Read the latest news* option in the application's menu. The latest downloaded RSS feed updates open in browser.

*News Archive*: by selecting this option you can choose to read the previously stored updating RSS feeds.

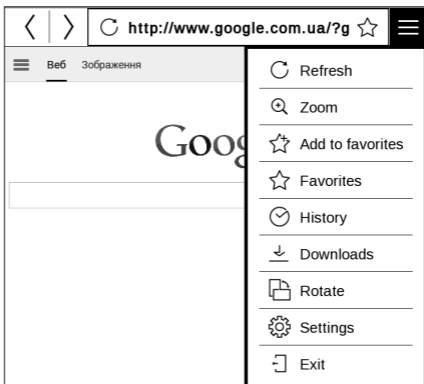

## Browser

This is an application for viewing web-pages. As you start Browser, you are suggested to connect to one of available wireless networks.

To enter website address, touch address bar, type an address from on-screen keyboard appeared and press *Enter*. To follow a link, just touch it. If a web-page doesn't fit a screen, you can scroll it: place your finger on the screen and move a page. Also, you can change scale of a web-page using zooming gestures (pinch or spread two fingers). Hardware buttons ▲/▼ are used to scroll page vertically: ▼ scrolls down and ▲ scrolls up, respectively.

Browser supports multiple windows, so you can open a new window for the corresponding browser menu section and view all opened windows. Also, from browser menu you can view history of visited websites, downloads, favorites, adjust scale of displaying web-pages, rotate a screen and configure the browser from *Settings* section. Under

*Settings* you can clear history and cookies, disable/enable JavaScript and loading images.

To exit Browser, touch the corresponding item in browser menu.

## **PocketBook Sync**

*PocketBook Sync* service allows you to download all books, chosen on the book store, directly to your Device (or even to several devices).

*PocketBook Sync* is convenient because you can choose files from the store in advance and then download them on your Device in any time convenient for you.

## Usage

**NOTE:** For correct work of *PocketBook Sync* time and date on the Device should be adjusted properly (*Settings > Date/time*).

To use *PocketBook Sync* you need to perform several simple steps:

## Registration

1. Register at the portal Book Store. (For example, at the portal [www.bookland.com](http://www.bookland.com) you need to add your Device to your account by entering a serial number of the Device on the site).

2. Authorize in *PocketBook Sync*. Do the following:

- launch the *PocketBook Sync* application and choose *Authorize*, or choose *Login* item in *PocketBook*

Sync Settings (*Settings > Accounts and Synchronization > PocketBook Sync*). If Wi-Fi connection has not been activated, the Device will generate a connection request).

- choose the store, where you are registered, from the list of content providers, and enter your account data.

### **Choosing and Sending Content to Your Device**

Choose the books on the Book Store and send them to the Device. (For example, in the Book Store [www.bookland.com](http://www.bookland.com) you need to choose content in the *Items* section and press *Send to PocketBook*).

### **Downloading Content on the Device**

Turn on Wi-Fi connection on your Device or choose *Update* in PocketBook Sync application (if Wi-Fi connection has not been activated, the Device will generate the connection request).

If *Automatic connection* is chosen in PocketBook Sync settings, Wi-Fi will be activated

automatically every half an hour for checking new links (if the Device is not powered off/not in sleeping mode). The list of downloads will be automatically loaded to the queue after successful setting connection.

If *Automatic download* is chosen in PocketBook Sync settings, the download will start automatically. If *By request* is chosen in PocketBook Sync settings, then a list of titles prepared for download to the Device will be displayed in the *In queue* section. You need to select one, several or all items in the list and choose *Download* (you can also delete undesirable links by choosing *Delete*).

You will see downloading and downloaded files in the *Downloads* section. Downloaded files are moved to the *Download folder*, location of which is defined in the PocketBook Sync settings (*Downloads* folder by default). The downloaded file is displayed on the wall of Last events of the Main Menu.

## Dropbox PocketBook

DropBox application allows to download files, added to Dropbox from any computer or any Device with installed Dropbox app or from the [Dropbox website](#), to your Device. And you do not need to install anything to your PocketBook, it is enough to authorize in the service.

### How to start using

1. Register in the Dropbox service ([www.dropbox.com](http://www.dropbox.com));
2. Input your Dropbox account data (email address and password) on your PocketBook Device in the section *Settings > Accounts and Synchronization > Dropbox > Log-in* to authorize Dropbox. (The Wi-Fi connection should be on, otherwise you will be asked to turn it on);
3. After successful authorization, the *Dropbox PocketBook* sync folder will be created in the Library of the Device. The *Application > Dropbox PocketBook* directory will show up in your Dropbox account, and after synchronization it will be available from other devices with Dropbox.

**NOTE** The application on your device will have access only to files in the *Application > Dropbox PocketBook* folder on the server

## How to synchronize

Automatically:

1. Files, added to the directory *Application > Dropbox PocketBook* on the server and to the sync folder on your Device, will be automatically synchronized when the internet connection is on.

2. All synchronized files will be downloaded to the sync folder in the Library (by default, *Dropbox PocketBook* is the sync folder, but you can change it in *Settings > Accounts and Synchronization > Dropbox > Sync folder*).

Manually:

1. To synchronize all content in sync folders, in *Settings* choose '*Accounts and Synchronization > Dropbox > Synchronize files now*', or in the *Library* choose '*Synchronize files now*' in the context menu of the sync folder.

2. After synchronization all obtained files will be also available in the sync folder in the Library on the Device.

## Send-to-PocketBook

The application allows to send files to the email address of your Device. Sent books will be automatically downloaded to your Device, if the Wi-Fi is turned on.

### How to start using

1. Register for the Send-to-PocketBook service, for this purpose do the following:

- Launch application:
  - from the *Applications > Send-to-PocketBook* section;
  - or from *Settings > Accounts and Synchronization > Send-to-PocketBook*.

**NOTE:** The Wi-Fi connection should be on, otherwise you will be asked to turn it on.

- In the opened wizard enter your contact email address and password.
- The email with the activation link will be sent to the specified address. Follow this link to receive the email address of your Device (for example, username@pbsync.com).

**NOTE:** The contact email address is used only for the authorization of the application, and the service address of the Device username@pbsync.com is used for sending books to it, if you want them to be downloaded to your Device.

2. After activation update the registration wizard on the Device. After that all applications features will be available for you, and the download folder for received books will be created in the library — *Send to PocketBook*.

## How to get files

Automatically:

1. Files, sent to the service email address of your Device, will be automatically downloaded to the download folder in

the Device Library, when the internet connection is on. Download folder is available after authorization from the locations:

- *Applications > Send-to-PocketBook;*
- *Settings > Accounts and synchronizations > Send-to-PocketBook > Go to folder* of the context menu of the *Download folder;*
- *Library > Send-to-PocketBook.*

2. By default, '*Send-to-PocketBook*' is the download folder, but you can change it at registration or in the *Settings > Accounts and synchronization > Send-to-PocketBook > Download folder* section.

Manually:

To update the content of the download folder, in *Settings* choose *Accounts and synchronization > Send-to-PocketBook > Receive files now* or in *Library* choose *Receive files now* in the context menu of the download folder.

Received files will be also available in the download folder in the Library of the Device.

## **The list of trusted senders**

Documents can be downloaded on the Device, if they are sent from the address, contained in the 'white list' (a list of the trusted senders).

The address, specified at registration, is contained in the list by default.

If the mail is sent to your Device from the unknown address, you will receive the letter with a proposal to add a sender to the 'white list'. After your confirmation you will receive files from the added address to your Device. Thus, spam won't get on the Device.

# Settings

---

In this chapter you will learn how to configure the interface and software features of the Device for the most comfortable usage. Select *Settings* at *Notification panel* to configure the Device. All changes will be applied after exiting the section.

If you will encounter any problems with new settings, you will be able to start the Device in safe mode with factory defaults. To start in a safe mode, press and hold **Backward** key during the Device boot.

## WI-FI

In this section you can set parameters needed for network connection.

*Network access* — **on** or **off**. After network access activation, the following settings appear:

- *Auto connection* **on** or **off**;

- *Connection to hidden networks* — read more in the [Connecting to the Internet](#) section of this manual.
- *Available Networks* — a list of available networks. Choose one of them and you'll see parameters of this connection: Network name (SSID), signal strength, security, IP-address, network mask, main gateway, DNS.

**NOTE** If Scanning is displayed instead of *Available Networks*, it means that Device is searching for available networks.

## ACCOUNTS AND SYNCHRONIZATION

**Book Store** — in this section you can enter *Login* and *Password* for authorization in the [Book Store](#).

**PocketBook Sync** — There are the following settings for the PocketBook Sync service:

- *PocketBook Sync Status: On or off*. The service is turned on automatically at the authorization. If you are not

going to use the service for a long period, you can turn off to optimize the Device productivity.

- *Establishing Connection: Automatically* (connection will be established automatically every half an hour to check for new links (if the Device is not powered off/ not in sleeping mode)) or *Manually* (the connection is established at updating list of downloads or at choosing network connection).

- *Downloading via Wi-Fi: On demand* (you need to process the list before download) or *Automatically* (all new files are downloaded automatically).

- *Download folder*: location of files. The *Downloads* folder is set by default. You can choose another folder or create a new one in the internal Device storage or on the external SD-card.

- *Login/Exit*: if you are not authorized in the application, the page with a list of book stores will appear for choosing and authorization. If you are authorized, then you can logout PocketBook Sync.

- *Information about service* — more detailed about service.

**Send-to-PocketBook** — the following options are available:

- *PocketBook account*: your account email.
- *Login/Log out*: if you are not authorized in the application, input your contact email address and password, to authorize. If you are authorized, the email, to which you can send books, is displayed. You can logout Send-to-PocketBook.
  - *Receive files now*: The content of the *Download folder* will be updated. Before update, please, check if your Device is connected to the Internet.
  - *Receive files automatically*: *On* or *Off*. Files, sent to the Device address username@pbsync.com, will be automatically updated in the download folder, if Wi-Fi connection is on. You can turn off automatic receiving files to optimize the Device productivity.

- *Download folder*: location of received files. The *Send-to-PocketBook* folder is set by default. You can choose any other folder or create a new one in the internal Device storage or on the external SD-card.

- *About service* — more detailed about service.

**Dropbox** — In this section the following options are available:

- *Login/Log out*: if you are not authorized in the application, input your Dropbox account data to authorize. If you are authorized, then you can logout Dropbox.

- *Synchronize Now*: Files in the *Sync folder* and Pocketbook device directory will be synced. Before syncing files, please check if your Device is connected to the Internet and is linked to the proper Dropbox account

- *Autosync*: Turn *On* or *Off* auto synchronization. The service is turned on automatically at the authorization, so Dropbox will automatically sync files, if Wi-Fi connection is on. You can turn off autosync to optimize the Device productivity.

- *Sync Folder*: location of synced files. You can also move files to *Sync folder*, if you want to sync them with *Dropbox Pocketbook* directory on the server. The *Dropbox PocketBook* folder on the Device is set by default. You can choose another folder or create a new one in the internal Device storage or on the external SD-card.
- *About Service* — more detailed about service.

**ReadRate** — In this section the following options are available:

- *Remove ReadRate Authorization*. After removing all files of events from ReadRate are deleted. Read more about ReadRate in [\*Social networks & ReadRate\*](#) section.
- *ReadRate Status*;
- *ReadRate authorization*.

## **Adobe DRM**

To authorize, input your *Login* (e-mail address) and *Password*. When you are authorized, your login and *Remove*

*Adobe DRM Authorization* items are displayed. After removing all protected DRM documents will be unavailable.

## PERSONALIZE

*Boot Logo* – image displayed during the Device starts. Logos are stored in *system/logo* internal storage folder, so you can copy an image you'd like to be displayed during startup.

**ATTENTION!** *System* folder is hidden by default. Please, change its parameters on your computer to make it visible.

*Power-off Logo* — the image will be displayed when the Device is off. You can set a cover of the last opened book by setting *book cover*.

*Status Bar in Reading Mode* — you can turn on or turn off the display of status bar during reading.

*Open at Startup* last opened book or main menu.

**NOTE** You can also set your own picture as a logo from the *Gallery* application. Read about it in the *Gallery* section.

*Interface Font.* You can change the font of interface choosing from standart fonts. If you'd like to use your own font, copy its files to the *system/fonts* internal storage folder

*Theme* is set by default. If you want to use another theme, download a file in .pbt format to the folder *system/themes*.

*Key Mapping.* In this section you can remap hardware keys. To change key action, select it from the list and select action from the list.

*User Profiles* can be configured up to 6 (5 can be stored on the internal storage and 1 – on microSD card). Each profile stores individual books' status, last opened books, bookmarks, notes, favorites and pre-configured network connections.

To add new profile, open the corresponding item. You will be suggested to set destination (local memory or SD card) and to enter the name from on-screen keyboard. After this current above-mentioned parameters will be stored at this profile.

To activate profile open the one you need. In profile context menu you can change avatar, rename or delete profile.

## LANGUAGES

**Language.** Select the Device's interface language.

**Keyboard Layouts.** Under this section you can add up to 3 keyboard layouts.

**Available Dictionaries.** Under this section you can uncheck dictionaries you don't want to be displayed in the list during the translation or in *Dictionary* application;

## DATE/TIME

In this section you will be able to set date, time, time zone and clock format. You can also *Synchronize Time* or set *Auto Time Sync* to use the network time/date.

## CAMERA

In this section you can configure the folders in which photos and documents captured with the camera will be stored, as well as select the resolution for your images.

## SCREEN

### Text Rendering

Good quality or Not antialiased.

### Complete Page Refresh

Select the amount of page turned before the screen will be updated completely. *Always* item provides the best quality,

but consumes the most power. Less frequency may cause some artifacts from previous pages on a screen.

## **SAVING BATTERY**

Here you can see battery level and set parameters, which help to save battery charge:

- *Battery Percentage*;
- *Auto screen lock* — set time of idleness, after which the Device is locked: off, 5 min, 10 min.
- *Power off after* — set time of idleness, after which the Device power off: 10, 20, 30 or 60 minutes.

## **MAINTENANCE**

**USB Mode** — set how the Device handles USB connection by default: *PC link*, *Charge* **or** *Ask when connected*.

## Backup & Recovery

- *Restore Configuration* – select the configuration file to restore from a list;
- *Backup Configuration to SD* – this action will create a backup folder on an external microSD-card and will save there system settings. You will be suggested to enter the file name from on-screen keyboard;

## Library

This section is intended for optimization of Library database.

- *Library Data Update* – set the parameters for Library database update:
  - *Off* – database won't be updated;
  - *Once* – database will be updated after exit from *Configuration* section, the parameter will be set to *Off* after update;
  - *Automatically* – database would be update after each Library opening and copying/removal of books (including microSD card change).

- *Optimise Database* – remove old database entries. To run optimization set the parameter to *Once* and exit *Settings*. The parameter will be set to *Off* after optimization.

## Privacy

- *Protect Configurations by Password* — in this section you can protect your setting by password. Select *Set Password* section and type the password from on-screen keyboard. Now each time you try to enter *Settings* section, you will be asked to enter the password. You can remove or change password by selecting the corresponding item. To proceed, you will be asked to enter the password once more.

- *Diagnostic and Usage* — software provides data to PocketBook about some actions, performed by a user on the Device for the further improvement of the Device and services to users. The serial number and any other information for identifying a user isn't saved. You can disable this option of statistics gathering in the *Diagnostic and Usage* section.

**Format Internal Memory** – this action will erase all data, except system files.

**CAUTION!** If you need to erase all data on the Device, use this feature only, don't try to format the Device internal memory via PC.

**Format SD card** – this action will erase all data from the external microSD card.

**Factory Reset** – the Device state will be reset to factory default settings, erasing user settings. Other data (e.g. books, photos) won't be lost;

**Demo mode** - switching demo mode for the Device. To activate demonstration mode check *On* in the *Demo mode* item.

## SOFTWARE

*Firmware Version* - the current version of firmware is displayed;

*Software Update* – the Device will search for updates in

the following order: microSD card (if installed), internal storage and Internet.

*Auto Update* – turn on/off automatic check for updates.

*Third-Party Apps* — license and information about third-party applications, used on the Device.

## **ABOUT DEVICE**

The following information about Device will be displayed:

*Device Model* (model, serial number, hardware platform, Wi-Fi MAC address),

*Memory* (operative memory, total and available internal memory and microSD-card),

*License* - license and information about applications, used on the Device.

# Firmware Update

---

**WARNING!** Firmware Update is a responsible operation, during which management software of the Device will be changed. In case of improper execution control program may be damaged and will require treatment in the service centre. Please perform the upgrade procedure in accordance with the instructions below.

There are two ways to update the firmware.

## Automatic Update

To start automatic software update select *Settings > About Device > Software > Software Update*.

The Device will begin to check available update sources in the following order:

- MicroSD card (if installed);
- Internal memory;
- Internet.

If default Internet connection is not set, the Device will ask to connect to one of available wireless networks.

Also you can activate the automatic updates check (*Settings > About Device > Software > Auto Update*). In this case, the Device will use Wi-Fi connection only.

## Manual Update

1. Open site [www.pocketbook-int.com](http://www.pocketbook-int.com). Select your country.
2. Click the *Support* button on top menu. Select hardware model of your Device.
3. Download the *Firmware* to your PC.
4. Unpack the content of the archive, file SWUPDATE.BIN, and copy it to the root folder of internal Device storage.
5. Switch off the Device by pressing button **On/Off**.
6. Press and hold both **Backward** and **Forward** buttons.
7. Switch on the Device by pressing **On/Off**. Hold both **Backward** and **Forward** buttons until the message *Firmware update...* is displayed on the screen.

**8.** Follow the on-screen instructions with pictures:  
*connect USB cable to the Device and Press Menu Key*

**NOTE:** You can check your Firmware version in *Main menu > Settings > About device > Software > Firmware Version*

## Troubleshooting

Error Message	Reason	Correction Method
<i>No upgrade image found</i>	File SWUPDATE.BIN cannot be found on the microSD card. Make sure the file is in the root folder of the card.	Delete some files from the Device and copy SWUPDATE.BIN file on it one more time. Repeat the download from <a href="http://www.pocketbook-int.com">www.pocketbook-int.com</a> .
<i>Upgrade image is corrupted or Image is empty</i>	SWUPDATE.BIN file is damaged or there is no space available on the microSD card.	Delete some files from the Device and copy SWUPDATE.BIN file on it one more time. Repeat the download from <a href="http://www.pocketbook-int.com">www.pocketbook-int.com</a> .
<i>File read error</i>	MicroSD card error	Try to use another MicroSD card
<i>Error. A different firmware version is installed on the device</i>	A firmware file of an older version is stored in the device internal memory.	Delete the old version of the firmware file from the Device's internal memory root folder

# Troubleshooting

---

<b>Malfunction</b>	<b>Possible Reason</b>	<b>Solution</b>
Device does not turn on or turns on but only the logo is loaded	Battery is low	Charge the battery
A book does not open - the message <i>Book is probably damaged or protected</i> appears, or nothing happens at all	The book is damaged	If the book was downloaded from the online store try to re-load it again. If the file opens on your PC, but does not open on the Device, save the book in another format (TXT, DOC, PDF).
Html book opens but is displayed incorrectly.  For example, there are empty pages, some part of the text is missing etc.	HTML-files contain non-text elements (frames, JAVA-scripts, flash-elements)	Save the page in TXT format
Book opens but various symbols, question marks etc. are displayed instead of letters	Incorrect encoding	Switch to reading mode, select <i>Settings</i> and change encoding
No response when you press any key	Sometimes (e.g., when downloading damaged or too large books) the Device may freeze	Close the frozen application by pressing ▲/▼ keys simultaneously for 1–2 sec.

<b>Malfunction</b>	<b>Possible Reason</b>	<b>Solution</b>
After connection to PC disks are not displayed in Explorer	Your Device is in the battery charging mode.	Check USB mode in <i>Settings</i> Main Menu item. Set <i>Connection to PC</i> or <i>Ask at Connection</i>
	No signal in connection cable	Check USB cable condition and its proper connection to connector. Try to connect the USB-cable to another port
Bookmarks, settings and current position in file cannot be saved	File system damaged	Connect the device to a PC and check disks. To proceed, open <i>My Computer</i> , right-click on the selected disk and select <i>Properties &gt; Service &gt; Check Disk</i>
	Internal memory is full	Delete books, images and/or music files that you do not need
Battery discharges too fast	Disabled automatic turning off	<i>Settings &gt; Date/Time</i> in Main Menu. Select automatic turn off time in <i>Auto Turn Off in...</i> item

# Compliance with International Standards

---

**Product name:** *PocketBook Ultra*

**Model number:** *PocketBook 650*

The EUT should be supplied by USB port from complied Limited Power Source of personal computer or notebook.

The EUT should be supplied by Adapter from complied Limited Power Source.

Rated output voltage: DC 5V 1A.

This equipment is marked with the  symbol and can be used throughout the European community.

This indicates compliance with the R&TTE Directive 1999/5/EC.

France – 2.4GHz for Metropolitan France.

In all Metropolitan departments, wireless LAN frequencies can be used under the following conditions, either for public or private use:

- Indoor use: maximum power (EIRP\*) of 100 mW for the entire 2400-2483.5 MHz frequency band;
- Outdoor use: maximum power (EIRP\*) of 100 mW for the 2400-2454 MHz band and with maximum power (EIRP\*) of 10 mW for the 2454-2483 MHz band.

**IMPORTANT:** Changes or modifications to this product not authorized could void the EMC and wireless compliance and negate your authority to operate the product. This product has demonstrated EMC compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables between system components to reduce the possibility of causing interference to radios, televisions, and other electronic devices.

**Certification information (SAR)**

The device meets guidelines for exposure to radio waves.

Your device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The exposure guidelines for devices employ a unit of measurement known as the Specific Absorption Rate or SAR. The SAR limit stated in the ICNIRP guidelines is 2.0 watts/kilogram (W/kg) averaged over 10 grams of tissue. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The actual SAR level of an operating device can be below the maximum value

because the device is designed to use only the power required to reach the network.

This equipment complies with the European Council Recommendation of 12 July 1999 on the Limitation of Exposure of the General Public to Electromagnetic Fields [1999/519/EC].
