- Operation Range: 10 meters
- Play time: up to 10 hours
- Talk time: 10 hours
- Charging voltage: DC5V/500mA
- Charging port: Micro USB
- Charging time: 2.5 hours
- Built-in microphone

Operation specification:

1.Charge headphones. Please connect headphones to PC with included USB cable, or to an external USB charger (USB charger not included). Red indicator is on while charging. Fully charge may take up to 2.5 hours. Disconnect when charging is complete.

2.ON/OFF:

ON: turn the switch key to ON position, you will hear a Beep sound & blue and red light will flash. If the headphones are already paired with other unit it will try to pair again, otherwise you have to pair it.

OFF: turn the switch key to OFF position to turn headphones off. Note: headphones will automatically turn off, if you pairing within 10 minutes.

3.Connecting to Bluetooth enabled device:

A. Bluetooth pairing for the first time

- 1) Turn on headphones: turn the switch key to ON position. The headphone enters into pairing mode when blue and red light indicator flashes.
- 2) Turn on the device you want to pair with (such as MP3, mobile phone, smart phone or tablet PC with Bluetooth function)
- 3) Choose and confirm "BTH-204" from your Bluetooth device menu. If asked for password, please input 0000.
- 4) Bluetooth connection is successful when blue indicator flashes slowly.

B. Pair with other Bluetooth enabled device

- 1) If you need to pair your headphones with a new unit, make sure to unpair with the existing device, and then make a new pair like just described.

C.Pair with the second phone:

Make sure headphone are ON and successfully connected with first phone, and then double click "prev" button to enter pairing mode & repeat above 3-5 steps to connect with the second phone.

Note: you may need to connect certain device separately after pairing. The blue indicator of headphone will flash slowly when it is connected to your device successfully. The headphone will automatically search and connect to previously connected Bluetooth device after restart. Multi-devices pairing is allowed for headphones, but the actual use is only available for one device at a time.

4. Adjust volume :

Connect headphone to Bluetooth enabled device successfully:

> + : long press to increase volume

| < : long press to reduce volume

Note: headphone alarm will sound when volume reaches maximum or minimum. You can also adjust volume on A2DP paired device(if the connected device support this profile).

5. Mobile phones calls:

Connect headphone to smartphone

1) Answer incoming call: press multifunction key shortly(not more than 1 second)

2) Reject call: hold the multifunction key for 3 seconds

3) End call: press multifunction key shortly(not more than 1 second)

4) Press multifunction key twice rapidly to redial (if mobile devices support

headphone redial function)

5) Long press multifunction key can switch the call to mobile phone. While, press the multifunction key twice during calls will turn on mute. The headphone will automatically broadcast caller ID for an incoming call.

6. Listen to music:

Please connect headphone to A2DP supported compatible music player. The music playback function depends on your player. Your music player will pause, if you answer or dial calls when listening to music, until call ends. Press multifunction key shortly (not more than 1 second) to pause or resume play. For next song, please press |< once, previous song, press >+ twice.

7. AUX play:

Make sure the headphones is turned off. Connect one end of 3.5mm audio cable to headphones, and the other end to the unit you want to play music from.

Indicator:

| | |
|------------------------------------|---|
